PROFILE

As a MERN stack developer, I skilled in MongoDB, Express.js, React.js, and Node.js. Demonstrated ability to deliver top-notch web solutions with a focus on clean, efficient code and a passion for problem-solving.

As a MERN Stack Developer, I possess expertise in foundational web structuring and building languages including HTML, CSS, and JavaScript, along with frameworks such as jQuery, Bootstrap, Express.js, Tailwind CSS, and React. Proficient in implementing data-flow architecture with Redux and Redux Toolkit Query, I specialize in crafting responsive designs and ensuring cross-browser compatibility. My skills extend to optimizing website performance and enhancing user experience. With strong problem-solving abilities, attention to detail, and effective communication skills, I consistently contribute to successful project outcomes. Committed to continuous learning, I thrive in collaborative environments, efficiently achieving project objectives

WORK EXPERIENCE

August-2022 - December-2022

Advertising & Marketing as Brand-Ambassador

Worked for different foods brands like Coco-Cola, Youngs, Tapal,etc.

December-2022 - March-2023

As a Data entry/analyst for making different sheets for holding data/info and accounts info.

March-2023 - March-2024

Study/work as a Mern-Stack-Developer(Both FrontEnd & BackEnd) at Vvork Cloud Technologies Laore.

AMBITION

My ambition as a Mern Developer is to leverage my skills and expertise to craft visually appealing, user-friendly interfaces that enhance the overall user experience. I aim to contribute to the company's success by delivering high-quality, innovative solutions that meet and exceed user expectations, while also continuously improving my skills and staying updated with the latest technologies and trends in the field.
